Paul Reuter

For

General Secretary

It's not me – it's us who will make a difference

36 years experience and more to come

Remember to vote for – Paul Reuter

At a time when the world is in economic melt-down and our members need their trade union to protect them from unscrupulous employers who will look to take advantage by shedding jobs and attacking terms, conditions and pensions – the last thing our union needs is for any of the candidates in this election to play into the hands of those who seek to undermine our union and the members.

Many members are angry that this election is being used as an opportunity, by some elements of the press, to attack our union, the members and the trade union movement.

Not only have damaging claims been made against our union in the press, links have been placed on at least one website that will draw attention to those claims and potentially cause further damage to our trade union.

Our campaign has not, and will never sink to, those depths. We will continue to concentrate on policy and offer a new and united way forward.

Members should not support candidates who are driven by personal ambition, a narrow political agenda, or choose to assist the press in attacking our union.

Members will soon have the opportunity to vote for a candidate who can unite the membership and take our union forward.

Don't waste this opportunity

Vote for Paul Reuter
